TOP TEN CONTROVERSIES IN SHOULDER ARTHROPLASTY: A TRANSATLANTIC DEBATE

27th March 2021
A Live Streaming Free Event

2:00 PM Central European Time: Rome
9:00 AM Eastern Standard Time: New York

2:00 pm Introduction by
ASES, SECEC and SICSeG Presidents

2:10 pm Presentation of the course:
J. Sperling (Minnesota); G. Porcellini (Modena)

2:15 pm NEW TECHNOLOGIES IN SHOULDER ARTHROPLASTY

- Introduction: **A. Giorgini (Modena)**
- Preoperative planning software: does it make the difference?: **G. Walch (Lyon)**
- Intra-operative navigation is the preferable technique: **J. Zuckerman (New York)**
- Patient specific instrumentation is the future: **O. Verborgt (Antwerp)**
- Mixed reality is the way to go: **G. Athwal (London, Ontario)**
- Cross-fire discussion and questions from participants: **L. Tarallo (Modena) and E. Calvo (Madrid)**

2:48 pm STEM VS. STEMLESS IN ANATOMIC TSA

- Introduction: **P. Paladini (Cattolica)**
- I prefer a short stem humeral component: **D. Dines (New York)**
- I prefer a stemless implant: **E. Gervasi (Latisana)**
- Cross-fire discussion and questions from participants: **A. Castagna (Milano) and P. Boileau (Nice)**

3:11 pm 28 YEAR OLD WITH ARTHRITIS AFTER INSTABILITY SURGERY

- Introduction: **G. Di Giacomo (Roma)**
- Hemiarthroplasty is the Way to Go: **G. Athwal (London, Ontario)**
- Tried (biological) and true-Anatomic TSA: **E. Calvo (Madrid)**
- Cross-fire discussion and questions from participants: **S. Gumina (Roma) and L. Lafosse (Annecy)**

3:34 pm 60 YEAR OLD INTACT ROTATOR CUFF AND B2 GLENOID WITH 28 DEGREES OF RETROVERSION

- Introduction: **F. Castoldi (Torino)**
- Anatomic TSA with an Augmented Glenoid Component is preferred: **Q. Throckmorton (Tennessee)**
- Reverse shoulder arthroplasty is the best option: **S. Antuna (Madrid)**
- Cross-fire discussion and questions from participants: **P. Paladini (Cattolica) and O. Verborgt (Antwerp)**

3:57 pm CORRECTION OF THE RSA ANGLE

- Introduction: **S. Giannotti (Siena)**
- Bio-RSA: **P. Boileau (Nice)**
- Augmented baseplate in all RSAs is the way to go: **T. Duquin (Buffalo)**
- Cross-fire discussion and questions from participants: **G. Merolla (Cattolica) and D. Dines (New York)**

4:20 pm TISSUE TRANSFER-IS IT NECESSARY?

- Introduction: **G. Merolla (Cattolica)**
- A tissue transfer is the best way to restore external rotation strength: **P. Valenti (Parigi)**
- Keep it simple and use a lateralized implant to restore external rotation strength: **M. Frankle (Florida)**
- Cross-fire discussion and questions from participants: **P. Randelli (Milano) and G. Walch (Lyon)**

4:43 pm MASSIVE GLENOID BONE DEFICIENCY

- Introduction: **D. Petriccioli (Brescia)**
- Bone Graft is the Preferred Solution: **L. Seebauer (Munich)**
- Custom Glenoid Component is the Way to Go: **D. Dines (New York)**
- Cross-fire discussion and questions from participants: **E. Guerra (Bologna) and G. Athwal (London, Ontario)**

5:06 pm SCAPULAR SPINE FRACTURE AFTER RSA

- Introduction: **M. Borroni (Milano)**
- When and how I fix these fractures: **P. Boileau (Nice)**
- Non-operative treatment is the preferred treatment: **F. Campi (Forlì)**
- Cross-fire discussion and questions from participants: **F. Franceschi (Roma) and P. Valenti (Parigi)**

5:29 pm INFECTED SHOULDER ARTHROPLASTY

- Introduction: **C. Ascani (Roma)**
- One Stage Revision for Infection: **L. Lafosse (Annecy)**
- Two-stage re-implantation for the infected arthroplasty: **J. Zuckerman (New York)**
- Cross-fire discussion and questions from participants: **D. Blonna (Torino) and M. Frankle (Florida)**

5:52 pm SUBSCAPULARIS FAILURE AFTER TSA

- Introduction: **R. Russo (Napoli)**
- Tissue transfer is the way to go: **P. Valenti (Parigi)**
- Revision to RSA is the Only Answer: **T. Duquin (Buffalo)**
- Cross-fire discussion and questions from participants: **R. Garofalo (Bari) and G. Walch (Lyon)**

- 6:15 pm Conclusion and Closing Remarks

For Italian healthcare professionals ECM

Saranno attribuiti 4,5 crediti ECM alle seguenti professioni: MEDICO CHIRURGO (Chirurgia Generale, Medicina dello sport, Medicina fisica e riabilitazione, Ortopedia e traumatologia, Radiodiagnostica, Reumatologia); FISIOTERAPISTA; TECNICO ORTOPEDICO; TECNICO SANITARIO DI RADIOLOGIA MEDICA

OBIETTIVO FORMATIVO

Contenuti tecnico-professionali (conoscenze e competenze) specifici di ciascuna professione, di ciascuna specializzazione e di ciascuna attività ultraspecialistica, ivi incluse le malattie rare e la medicina di genere
