Final Program

COURSE PRESENTATION

Dear friends,

it is almost time for the sixth edition of the Modena International Meeting. Much has changed over the years, but the endoscopic ear surgery is indeed spreading more and more in almost every country in the world.

The aim of this edition of our meeting is to present the state of the art, to contribute to achieve better results and to reduce the invasive approach of otologic surgery.

Modena and Verona are two gorgeous Italian cities that will make you appreciate not only the scientific aspects, but also the enogastronomic specialties and the beauty of history dating thousands of years.

See you soon in Modena and Verona

Livio Presutti Daniele Marchioni
